VODIČ ZA KRACIJA IN UPRAVLJANJE DOGODKOV

Gal Dvoršak, Oliver Kunovski, Izidor Robnik | RVIR | 26.01.2025

1. Kreacija dogodka

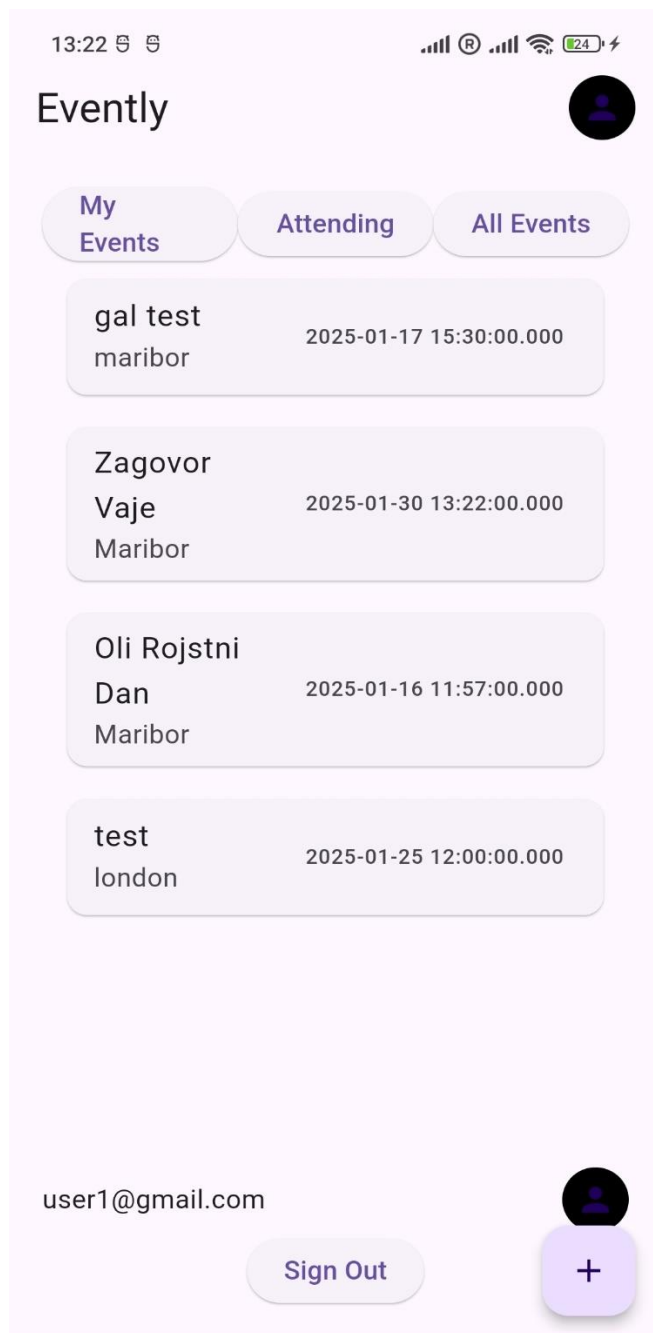

Po uspešni prijavi v aplikacijo, lahko v desnem spodnjem kotu opazite gumb s plus (+) ikono. Ob kliku na gumb se vam prikaže dialog za kreacijo dogodka, kjer določite ime, lokacijo ter datum in čas dogodka. Za datum in čas lahko uporabljate za to posebej prilagojen grafični vmesnik.

2. Prikaz dogodka

Po uspešni kreaciji se bo vaš dogodek pokazal med ostalimi vašimi dogodki. Dogodki so razvrščeni glede na njihov datum oz. uro. Izbirate lahko med več pogledi:

- My events: dogodki katere ste kreirali vi
- Attending: dogodki za katere ste že potrdili udeležbo
- All Events: Vsi vaši že iztekli se dogodki

3. Pregled dogodka

Ob kliku na željen dogodek, si lahko ogledate podrobnosti tega dogodka ter upravljate z dogodkom (opisano v naslednjih točkah).

The screenshot shows a mobile application interface for an event page. At the top, there's a status bar with the time 7:24 and various icons. Below it, a header bar contains a close button (X) and the title 'EventPage'. The main content area is divided into two sections. The first section, titled 'Oli Rojstni Dan', displays the event date and time as '2025-01-16 11:57' with a calendar icon, the location as 'Maribor' with a location pin icon, and a list of 'Confirmed Participants' which includes 'Gal' with a green checkmark icon. Below this section are three buttons: 'Manage Tasks' with a checklist icon, 'Manage Guests' with a group of people icon, and 'Check Weather' with a sun icon. The second section is titled 'Bulletin Board' and contains a large text input field with the placeholder text 'Add an announcement'. Below the input field is a 'Post Announcement' button. At the bottom, there are two message boxes. The first is a question: 'Will the event be cancelled in case of rain?'. The second is an answer: 'No. So please check the weather before arrival for proper wardrobe :)'. The messages are enclosed in colored borders (orange for the question and green for the answer).

📝 Manage Tasks 👥 Manage Guests ☀️ Check Weather

Bulletin Board

Add an announcement

Post Announcement

Will the event be cancelled in case of rain?

No. So please check the weather before arrival for proper wardrobe :)

4. Dodajanje gostov

Ob kliku na »Manage Guests« lahko upravljate z udeleženci oz. povabljenimi gosti vašega dogodka. Ob kliku na gumb s plus (+) ikono v desnem spodnjem kotu se vam po pokazal dialog za dodajanje gosta. Če želite dodati gosta morate vpisati njegov email s katerim ima odprt račun v naši aplikaciji.

5. Kreacija nalog oz. zadolžitev

Na enak način kot z gosti lahko upravljate z njihovimi nalogami oz. dolžnostmi tako, da kliknete na gumb »Manage Tasks« in na enak način kot pri točki 4, tokrat dodate nalogo. Za dodeljevanje nalog morate vpisati ime gosta oz. udeleženca dogodka, ki jih lahko vidite v pregledu dogodka na »Event page-u«.

The screenshot shows a mobile application interface for managing tasks. At the top, the status bar displays the time 13:25, signal strength, and battery level at 24%. The app's header is a dark grey bar with a back arrow and the title 'Manage Tasks'. Below this, a light pink modal box titled 'Add Task' is centered. It contains three text input fields: 'Title' with the value 'Naredi pretstavitev', 'Description' with the value 'naredi podrobno predstavitev', and 'Assignee' with the value 'Oli'. Below the inputs is a dropdown menu currently set to 'to-do'. At the bottom of the modal are two buttons: 'Cancel' and 'Add'. A dark grey button with a white plus sign is located at the bottom right of the screen, outside the modal. The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

6. Upravljanje z gosti in zadolžitvami

Ko gost potrdi udeležbo se status njegovega povabila spremeni, lahko pa status spreminjate tudi sami z gumbom na desni strani imena gosta. Za to morate biti na strani »Manage Guests«.

Ko ste dodali goste in jim dodelili zadolžitve lahko z njimi vi, ter tudi gosti, upravljate in jim spreminjate status z gumbom ob strani naziva task-a.
